

WELCOME TO MYTOMCHAT.COM
“FOR BUSINESS”

So you're business is growing, that's great.
You need to expand or open a new office in a new city or
even in a new country ?

That's where we come in we make you're mobile and inter
office communications simple and professional.

- Multiple numbers all on 1 device
- Additional landline or/and mobile numbers
- Patented mobile app for Android & iOS
- Ring groups for incoming calls
- The ability to transfer calls to:
 - Landlines
 - Mobile phone
 - Between offices
 - Across continents

All this and more call or email us
for a full description

Email: info@mytomchat.com

Here's how it all works

Your new business, your 1st office with your dedicated main line in and out, with expansion and more lines and extensions.

Office: ext. 201
+44 123456789
Incoming & out

As your business grows so does your desk space with more people and more calls and the need for and interconnected office network

Office: ext. 202
Out only
+44 12345678

Office: ext. 203
Out only
+44 123456789

Office: ext. 204
Out only
+44 123456789

Office: ext. 205
Out only
+44 123456789

Outside the office

- Option 1: Personal Mobile
- Option 2: You have a 2nd phone for business

Here's how it all works

Now what about expansion into a different city or even into a different country ?

Office: ext. 201

- Option 2: You have a 2nd phone for business

Here's how it all works

Q: So just how do we set it all up?

A: We set up what we call ring groups we may also give you an additional number or numbers here's an example.

Ring group 1
Ext. 201 UK Office
Your mobile number

These are the 2 phones that will ring when someone calls your UK number

Ring group 2
Ext. 301 New York office
Your mobile number

These are the 2 phones that will ring when someone calls your New York number

Ring group 3
Ext. 201
Ext. 301
Your mobile number

These are the 3 phones that will ring when someone calls your new global number

Only with the MyTomChat App you can make and receive calls from your 3 business lines as well as transfer calls to UK or New York, making you're mobile phone a part of you're network and giving you the feeling and look that you're always in your office.

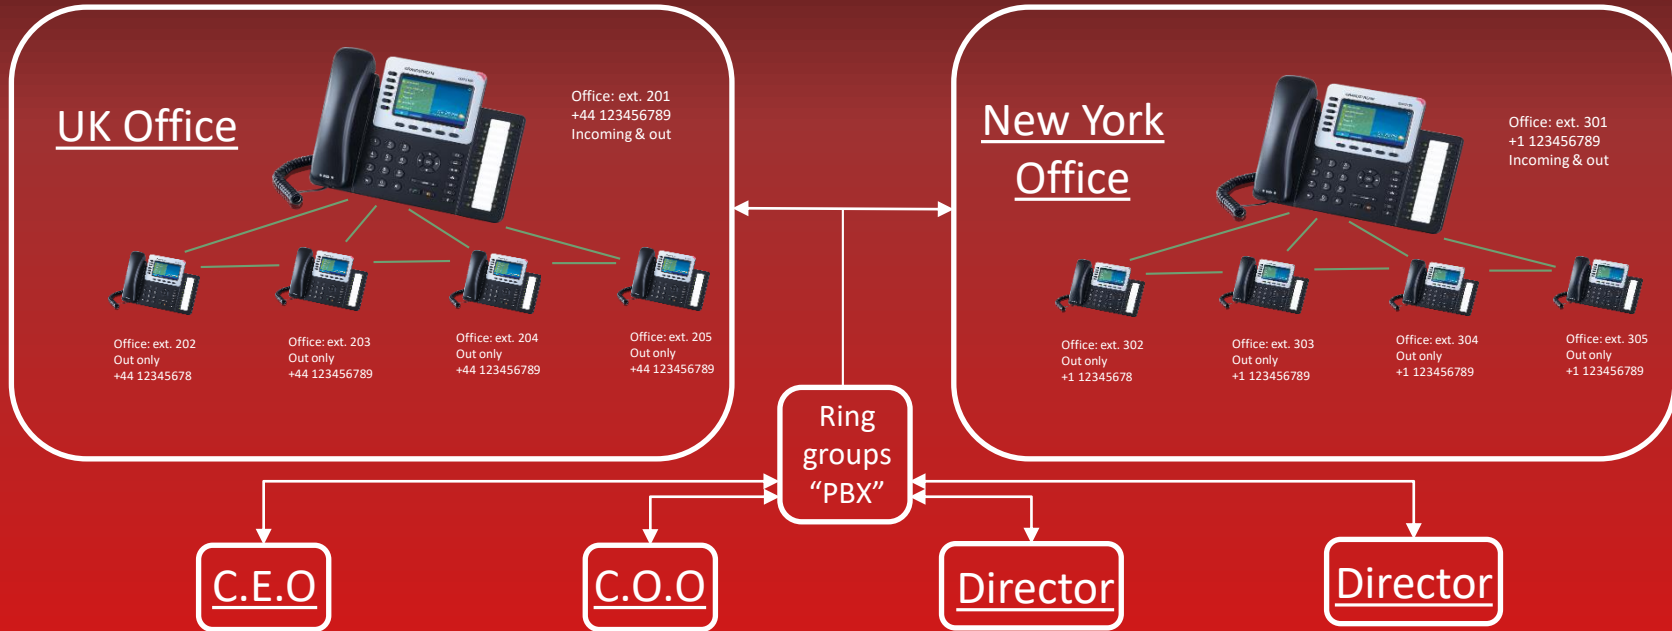

Download FREE from you're app store today

World-Mobile Solutions Ltd, UK

By the time we're finished your office network could look something like this
(Example Only)

This is just 1 example of how we might setup your office telecoms network
